

# NORTH STREET IMPROVEMENT

## VISION PRINCIPLES FOR A HAPPY STREET

1. Reduce the width of the road and slow car speed
2. Improve pedestrian experience and connectivity
3. Add green spaces and trees
4. Provide opportunity for the shops to spill out
5. Provide resting places
6. Introduce a cycle lane
7. Improve lighting?

Informal resting points and secured bicycles stands

Integrate green zones with raised planters and seating areas

Multiple pedestrian crossing at key locations to favour pedestrian connections.

Allow spaces dedicated to shops to extend outside. Locate centrally the delivery and blue badge parking.

Integrate trees and planting on extended pavements to clearly define gathering spaces

EXTENDED PAVEMENT GATHERING SPACES
